#### 1. Lecture on mentoring Undergraduate Research

Prof. Shobha Bagai, a Professor of Mathematics and the Director of the **Cluster Innovation Centre (CIC)** at the University of Delhi, is a leading voice in reimagining the role of research in undergraduate education. Prof. Bagai emphasizes a shift from traditional pedagogical roles to a faculty-mentee relationship. In her view, the mentor does not just provide answers but creates an environment where students can: Identify Real-World Problems: Research is not confined to textbooks; it begins with observing "clusters" (industry, village, or urban slums) and identifying gaps. Embrace Interdisciplinarity: She encourages students to use mathematical

modeling or IT tools to solve problems in humanities, biology, or social sciences.

## 2. **Ethics in Research: Guide for Undergraduate Researchers**

This guest lecture titled "Ethics in Research: A Guide for Undergraduate Researchers." was organized by Research & Collaboration Cell in association with the Department of Psychology (under the aegis of IQAC). Prof. Purnima Singh, Indian Institute of Technology (IIT) Delhi spoke about the importance of ethics in research to the 4th year undergraduate students.

## 3. **Workshop on 'JAMOVİ' for Data Analysis**

A workshop on **jamovi** for Data analysis was conducted for faculty at Kamala Nehru College (KNC), University of Delhi, led by Assistant Professor **Dr. Ashwini Kumar** having specialisation in Psychology and Quantitative Research Methods, SOSS, IGNOU. Jamovi is rapidly becoming the go-to alternative to SPSS in social sciences due to its open-source nature and user-friendly interface. The workshop was aimed to provide faculty hands-on experience in the usage of the software to facilitate research in social sciences.

## 4. **Workshop on R for social sciences: Hands on training program**

The Research and Collaboration Cell at **Kamala Nehru College** conducted a two-day workshop, "**R for Social Sciences**," on **March 13–14, 2026**. Led by **Dr. Ajay Kumar Chauhan**, the founder of ResearchSiksha is a reputed international consultant in qualitative methods. The hands-on programme covered R basics, statistical analysis, and data visualization.

## 5. **NYRSS 2026 SYMPOSIUM: Inquiry and Insights: Research perspectives in contemporary contexts**

The two-day virtual National Symposium served as a significant intellectual platform for 88 student researchers from diverse academic institutions nationwide. Spanning eight multidisciplinary themes—including mental health, governance, and digital culture—the event facilitated a rigorous exchange of scholarly inquiry. Distinguished panelists from various universities provided critical evaluations, offering constructive feedback to refine the participants' methodological approaches. By recognising exceptional contributions with "Best Presenter" awards in each thematic category, the symposium not only celebrated academic excellence but also incentivized future research. This digital forum successfully bridged geographic divides, fostering a robust community of practice among emerging scholars.
